

NORTHEAST RECYCLING COUNCIL

NERC.ORG

ADVISORY MEMBERSHIP

The Northeast Recycling Council offers its members a platform for learning and engagement with actors across the value chain to support a vibrant economy within sustainable materials management.

Members have the opportunity to join member-exclusive committees that actively discuss cutting-edge topics and participate in project development and educational activities that help to bridge informational gaps and propel innovation and action forward in the spaces of technology, economic development, and policy. Members also receive exclusive access to reliable regular market data and other resources.

“NERC brings together experts, policy makers, and municipal leaders to solve today’s problems. It gives us an invaluable platform to learn from one another and share our passion with our community.” - Debra Darby, Tetra Tech

COMMITTEES
