NASWA Recycling Facility Accepts Clean, Clear Glass

You now have a place to recycle your clean, clear glass food jars and beverage containers—North Aroostook Solid Waste Association’s (NASWA) recycling facility. As of **ENTER DATE**, NASWA will be accepting clean, clear glass containers, along with a variety of other recyclables.

Recycling glass containers helps towns reduce the weight of their trash, saves landfill space, and creates a supply of materials for glass manufacturers. The glass collected by NASWA will be sent to a recycler in Canada, who will process it to make ready for manufacturing into glass containers or fiberglass insulation.

Acceptable Clean, Clear Glass:

- Beverage bottles
- Condiment jars
- Food jars
- Canning jars

Not Acceptable Glass:

- Mirrors
- Drinking glasses
- Ceramics of any kind
- Clay flowerpots
- Crystal
- Light bulbs
- Window glass
- Ovenware
- Candle jars
- Perfume or cologne bottles
- Plastic, Metal, Paper.

When you arrive at NASWA, look for the glass recycling signs!
