from **Joest** (Glen Ellyn, Ill.). The facility, which came online this year, plans to increase its capacity to 20 mt an hour, Stadler says. Visit [www.nrhamm.com](http://www.nrhamm.com) or [www.zars-usa.com/stadler.php](http://www.zars-usa.com/stadler.php).

■ **Andritz MeWa** (Gechingen, Germany) is rebuilding and modernizing **Remondis Electrorecycling's** (Lünen, Germany) refrigerator recycling plant in Berlin. Andritz MeWa is supplying the QZ 2500 cross-flow shredder for the plant, which will process about 35,000 tons of scrap annually. The companies expect the new equipment to be operating by the fourth quarter. Visit [www.andritz.com](http://www.andritz.com) or [www.remondis-electrorecycling.de](http://www.remondis-electrorecycling.de).

■ **Aeiforos** (Thessaloniki, Greece), a subsidiary of steel manufacturer **Sidenor** (Athens, Greece), is upgrading its scrap

recycling plant in Thessaloniki. The facility already uses the SICON-100 system from SICON to process end-of-life vehicles, and it is adding the SICON VariSort M system to sort Zurik into copper, stainless steel, and aluminum streams. Visit [www.aeiforos.gr](http://www.aeiforos.gr) or [sicontechnology.com](http://sicontechnology.com).

**AWARDS AND MILESTONES**

■ The **Construction & Demolition Recycling Association** (Aurora, Ill.) has selected **E.L. Harvey & Sons** (Westborough, Mass.) as C&D Recycler of the Year, recognizing the company for the 76-percent recycling rate its construction and demolition operations achieved in 2014 and for actively promoting recycling throughout its region. Visit [www.elharvey.com](http://www.elharvey.com) or [www.cdrecycling.org](http://www.cdrecycling.org).

■ Automotive company **JM Family Enterprises** (Deerfield Beach, Fla.) has

received a Recycling Recognition Program award from the **Florida Department of Environmental Protection** (Tallahassee, Fla.) for its recycling efforts in 2014. To receive the award, companies must have a recycling rate at or above the state's recycling goal of 50 percent. JM Family Enterprises achieved a 64-percent rate at its three Florida facilities—in Deerfield Beach, Margate, and Jacksonville—by recycling aluminum and other metals, glass, paper, plastic, textiles, and wood. FDEP started the Recycling Recognition Program in 2012 to encourage businesses, institutions, schools, organizations, and the public to increase recycling to reach Florida's goal of a 75-percent recycling rate by 2020. Visit [www.jmfamily.com](http://www.jmfamily.com) or [www.dep.state.fl.us](http://www.dep.state.fl.us)

■ The State Electronics Challenge, a national environmental stewardship

program, recognized 12 entities as its 2014 winners. The challenge encourages state, local, and tribal governments, as well as schools and universities, to reduce the environmental impact of their electronic office equipment. Nine groups earned the gold designation for implementing green procurement practices, conserving energy and paper, and responsibly recycling computers and imaging equipment. The challenge recognized two silver award winners for green procurement and responsible electronics recycling, and it named one bronze recipient for its green procurement activities. The **Northeast Recycling Council** (Brattleboro, Vt.) administers the challenge, with funding from several electronics manufacturing, advocacy, and certification groups. Visit [www.stateelectronicschallenge.net](http://www.stateelectronicschallenge.net).

■ **Carpet America Recovery Effort** (Dalton, Ga.) has named Dalton-based **Tandus Centiva** its Recycler of the Year for employing the carpet recovery industry's first closed-loop recycling program, which is designed to reclaim and recycle postconsumer flooring, installation scrap, and product samples. Through its ReStart program, Tandus Centiva has recycled more than 268 million pounds of flooring material, CARE says. Visit [www.carpetrecovery.org](http://www.carpetrecovery.org) or [www.tandus-centiva.com](http://www.tandus-centiva.com).

■ **Platts** (London) recognized 12 companies with 13 awards at its Global Metals Awards ceremony in May, naming **Alcoa** (New York) Metals Company of the Year and recipient of the Industry Leadership Award—Aluminum. **NEMAK's** premium alloys unit (García, Mexico) received the Industry Leadership Award—Scrap

& Recycling, while **Teck Resources** (Vancouver, British Columbia) earned the Corporate Social Responsibility Award. For a full list of winners, visit [gma.platts.com](http://gma.platts.com).

■ The **New Mexico Recycling Coalition** (Santa Fe) seeks to raise the state's recycling rate to 50 percent with a \$5,000 Think Green grant from **Keep America Beautiful** and **Waste Management** (Houston). NMRC says it plans to use the grant for its Increasing Recycling project, which will research what other states and communities have done to get greater recycling participation from businesses and increase the amount of material diverted from landfills. Other topics NMRC will research include construction and demolition recycling, state agency recycling, and how to fund and measure recycling. The group will present its research and get feedback

**SMELTING SIMPLIFIED**

**ARSHAM ALUMINUM ALLOYS**  
"A Division of Arsham Metal Industries"

**OUR SECONDARY ALLOYS ARE PRIME!**

**What We Pay For On Time:**

- All Secondary Aluminum Scrap

**What We Do Best:**

- Manufacture RSI
- Manufacture DE-OX
- Toll Aluminum

**GET MORE OUT OF YOUR ALUMINUM SCRAP BY ADDING AAA TO YOUR CONSUMER LIST**
