

Maryland Federal Surplus Property Program

The Department of General Services (DGS), as [Maryland's State Agency for Surplus Property](#) (SASP), coordinates with the U.S. General Services Administration's Surplus Property Donation program to donate federal surplus property to Maryland-based, eligible private, nonprofit tax-exempt organizations; and public, tax-supported entities.

Registration in the newly developed web-accessible, [DGS Nonprofit Organization database](#) will benefit registered organizations. The organizations will receive notifications of opportunities to acquire surplus federal personal property--as donations--that are matched to their specific needs for property instrumental to achieving the organization's mission goals and the Maryland communities they serve.
